MERN stack developer with a passion for crafting efficient, scalable, and user-friendly web applications. Skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB.

Experience

BlockChain Council Jan 2024 - Present
Web Developer(MERN) Gurugram

Project: Chatbot for Client Website

- Contributed to the development of a chatbot as a user-assistant for better product selection using React chatbot toolkit for a client (Ed-Tech).
- Programmed the connection of frontend to the backend chatbot (AI) model using Rest API connection ports, consistently testing the responses using Postman.

Indibrain Technologies July 2023 - Dec 23
Web Developer Gurugram

Project : Website Development

- Contributed to the frontend and backend development for client website, majorly handling basic components such as forms and user associated data.
- Implemented API integration between the frontend and Node.js backend to facilitate user authentication processes, including login and signup functionalities.
- Established seamless communication between the frontend and MongoDB database, enabling CRUD operations to manage user data for signup and login procedures effectively.

Uflex May 2021 - May 23
Designer Noida

- Managed all phases of the design process for a multitude of products, components, parts, assemblies and sub-assemblies, including drafting, dimensioning, tolerancing and documenting results.
- Coordinated with various departments for the complete life cycle of new R&D machines which included projects from P&G(FW), Haldiram(Tiger Twin CTSD) & ITC(PFS).

Phronesis Partners Feb 2021 - May 2021
Research Analyst Noida

- Designed and executed studies to analyze data and provide actionable recommendations
- Generated data models and performed analysis to produce reports outlining results.

Education

DIT University Aug 2016 - July 2020
Mechanical Engineering
